**Focus Fabric—3 yards**

For a successful 4-patch posy quilt (also called kaleidoscope quilt), choosing a focus fabric that will yield varied blocks is important.

- Look for a fabric with a medium to large print with lots of variations in color and motif. (A motif is a part of the overall pattern that repeats across the fabric, for instance, a certain flower or animal.) A fabric with regularly spaced and similar motifs will not work as well.
- A little negative space (background) between motifs is ok, but it should not overwhelm the overall pattern.
- Rounded, curved motifs yield graceful designs in the four-patch block, while geometric prints may be more clunky and awkward looking.
- Florals, Asians, kids' prints, novelty fabrics are great choices. Most of all, choose something that you like.

**Coordinating fabrics and background**

These are not needed for the workshop, since we will have only time to cut and sew the posies. Choose coordinating fabrics once you have decided on a setting so you know how much you'll need.
